

Conventional cleaning methods are limited in their effectiveness. ADS offers a safe, long term and non-polluting solution to cleaning various ceilings including metallic and synthetic acoustic.

Ultrasonic cleaning of lighting provides an ideal, modern solution

Growth opportunity
for service providers

Innovative, specialised ceiling and lighting cleaning systems

A great opportunity exists for existing cleaning industry service providers to capitalise on a growing market segment.

ADS specialises in the cleaning of all types of suspended ceilings; lighting systems; carpet; and kitchen. German-based, it has offices in the UK, the US and other European cities.

Now, ADS is seeking Australian partners that are already in the cleaning industry, or ready to invest in the cleaning industry.

ADS offers the local sole rights to market exciting, leading edge ADS systems that include equipment, chemicals and intellectual property.

ADS cleaning systems have proved extremely successful in other world markets and now opportunities exist for interested Australian partners.
